

Winter semester 2020/2021

Raveed | IDC Herzliya

“My semester abroad in Innsbruck has exceeded my expectations. There is a feeling of community, the city is beautiful and the mountains around are stunning. Innsbruck has much to offer, especially sport and outdoor activities. The studies (even though they were all on zoom) were very professional and each professor tried to conduct the class in a way that you wouldn’t only learn but also process and talk about what has been studied.

I loved the student life here in Innsbruck and will for sure be back to visit in the future.”
