

Summer Semester 2019
Tamar | Beit Berl College

My letter

What can you say about this amazing semester?

First, thanks. Thank you for the opportunity you gave me. If Erasmus wouldn't exist, I would not have made this journey.

I enjoyed every minute!

Innsbruck is a magical town. Full of color, good people, beautiful landscapes, white and green in the eyes.

It's hard to look for what's wrong, because nothing was!

To the AIANI-Team, thanks for the close accompaniment, the constant interest in us, the delicious meals, the concert and more experiences with you. You have helped us with what was needed!

It's not obvious to me! So, thanks a lot.

One thing I was not that happy about, was the lack of time with our buddies. It would have been great to have more time with them, especially at the beginning of the program.

In addition, the trip to the "Nordkette" would have been nicer, if it had been at the beginning and not at the end, but still it was fun and very enjoyable.

Love, Tamar.
